#### 5. Student Support and Progression

#### 5.1 Contribution of IQAC in enhancing awareness about Student Support Services

- Availability of student support services are clearly explained during the inaugural session of freshers entering inside the campus.
- The academics calendar is furnished at the starting of every semester for creating awareness among students about continuous assessment process.
- The various activities in the departments and institution are published in the website to create awareness among students.
- Class committee meeting are conducted on regular basis to discuss about grievances and suggestions for improvement.
- The details of examination schedules, events organised, higher studies, placements related companies are displayed in notice boards to create awareness among students.

#### 5.2 Efforts made by the institution for tracking the progression

- HoDs Meetings are conducted with the Principal on every Monday to discuss various activities in the college and departments.
- The IQAC review the teaching learning process by conducting academic audits thrice in a semester by inspecting the continuous assessment and faculty contribution records.
- Students are encouraged to participate in zonal, district and state level sports meet. Fee concessions are given for the students who represent the college at state and national level sports event.
- Student record for every student is maintained by class advisors.
- Every semester class committee meeting are conducted for academic activities in which general discussion about suggestion for improvement of the system will be asked and implemented.
- The Higher Education Cell provides the students a guidance to enhance their knowledge in their chosen area of study. It provides students counseling on various courses available and encourages them to pursue a field of study in line with their skill sets, aptitude and career aspirations.

#### 6. Governance, Leadership and Management

#### 6.1 State the Vision and Mission of the institution

#### Vision of the Institution

We envision to achieve status as an excellent Educational Institution in the global knowledge hub, making self-learners, experts, ethical and responsible engineers, technologists, scientists, managers, administrators and entrepreneurs who will significantly contribute to research and environment friendly sustainable growth of the nation and the world.

#### Mission of the Institution

To inculcate in the students self-learning abilities that enable them to become competitive and considerate engineers, technologists, scientists, managers, administrators and entrepreneurs by diligently imparting the best of education, nurturing environmental and social needs.

To foster and maintain a mutually beneficial partnership with global industries and Institutions through knowledge sharing, collaborative research and innovation.

#### 6.2 Does the Institution has a "Management Information System"

Yes, the Institution has a Management Information System.

- ➤ It maintains all the academic processes, students' attendance, Examination system, stakeholders' feedback and faculty profile.
- Online system for marks and attendance entry, consolidation, analysis and automatic calculation of internal assessment marks.
- > Information about students' performance to parents.

#### 6.3 Quality improvement strategies adopted by the institution for each of the following:

#### 6.3.1 Curriculum Development

- Curriculum development is done based on the inputs from all the stakeholders.
- · Greater emphasis on design oriented teaching.
- Greater exposure to industrial and manufacturing processes.
- Outmoded technologies are replaced by new appropriate and emerging technologies.
- Using ICT tools for better learning experience with web contents from NPTEL, open courseware and instant assessment and evaluation.
- Greater emphasis given to professional communication skills.
- Subjects related to life science are also included.
- Choice Based Credit System to enable students to select subjects.
- Electives are included in the curriculum based on area or module specialization.
- Mathematics, Physics and Chemistry are department specific.

#### 6.3.2 Teaching and Learning

- Improvement of teaching learning process through Outcome Based Education (OBE),
   NPTEL, Video Conferencing etc.
- Provision of one credit courses and Value Added Courses
- The college has the strategy of including inputs from expert of various industries and academic institutions to improve the teaching-learning process.
- Systematic deployment of the courses using design documents, such as
  - ✓ Conventional lectures
  - ✓ Power point and Video presentations
  - ✓ Demonstrations and hands on training
  - ✓ Practical work
  - ✓ Special lectures by subject experts
- The course on teaching pedagogy is conducted on need basis to adopt innovation in teaching and learning.
- Special classes for slow learners to improve their performance.
- Improving the student evaluation process by following the Bloom's Taxonomy.

#### 6.3.3 Examination and Evaluation

- Continuous evaluation through different modes like internal assessment, assignments, presentations, projects etc.
- Question papers are verified for Bloom's level and distribution of questions.
- Collecting feedback on question paper from subject experts and also faculty handling the course to improve the quality of questions.
- · Conducting Central valuation for end semester examinations.
- Evaluation of answer scripts by the experienced examiners.
- Results processing fully computerized and published on college website.
- Provisions for the request of re-totalling / revaluation of answer scripts of end semester examinations within the stipulated period.

#### 6.3.4 Research and Development

- 09 departments of KSR College of Engineering are Approved Research Centre's of Anna University, Chennai.
- Under this Centre there are 34 Research Supervisors guiding the scholars in various disciplines.
- Under this Centre 108 scholars awarded Ph.D. degree and 161 scholars are pursing the Research.
- · Undertaking various funded projects.
- Encouraging faculty members to interact with industries to address real-world problems.
- · Creating opportunities for interested students in research activities.
- Encouraging innovations, research publications and facilitating the protection of Intellectual Property Rights (IPR).
- To increase the developmental research activities, outstanding researchers are encouraged

#### 6.3.5 Library, ICT and physical infrastructure / instrumentation

- Well stacked central library
- Active readers club is started to encourage the students to improve their reading habits.
- · Computerized student entry system.
- The physical infrastructure of the Library has been enhanced through various sections like Lending Section, Reference Section, GATE Section, Journal Section, Group Discussion Rooms and Civil Services Study Centre.
- For e-learning Multimedia Library is available.
- Specialized Software tool is used for transactions and tracking.
- Journal section and e-Journals of major professional bodies and publishers are available.
- 24x7 Wi-Fi Facility.

#### 6.3.6 Human Resource Management

- Staff development programmes are conducted.
- Awareness workshops and seminars.
- > Soft skills training programmes are also provided to the supporting staff members.

#### 6.14 Initiatives taken by the institution to make the campus eco-friendly

The college is conducting green audit in its campus every year. Green Audit Committee consists of senior faculty members from Civil, Mechanical and Electrical engineering. All the inmates of the campus are well aware about the outcomes of campus pollution and exercise green initiatives, as many methods as viable. The campus is free from plastic and also blowing horn is strictly prohibited. Plenty of coconut trees had been planted inside the campus which keeps the campus green, shady and cool. The green audit of our campus includes,

- · Green coverage with trees
- RO water treatment and its management
- Sewage (Hostel & Campus) treatment and its management
- Kitchen and dining waste management
- · Lawn territory management
- Solar power generation

The College gives great emphasis to maintain a green and eco-friendly campus. A dedicated team is working for this purpose and deals with the following:

- ✓ Energy Conservation
- ✓ Use of Renewable Energy
- ✓ Water Harvesting
- ✓ Check Dam
- ✓ Carbon Neutrality
- ✓ Plantation
- √ Hazardous waste management
- ✓ e-waste management
- √ Awareness Programs and Camps

#### 7. Innovations and Best Practices

- 7.1 Innovations introduced during this academic year which have created a positive impact on the functioning of the institution. Give details.
  - ➤ Enlightening communication skills of student through carrier development skills (CDS) class which is included in the curriculum.
  - > ICT enabled classrooms for Teaching and Learning, Wi-Fi LCDs with white boards are fixed in the class rooms. It facilitates Power Point presentations, audio and video playing in the classes.
  - > Choice Based Credit System (CBCS) with suitable flexibilities. Currently students have the options to choose open elective from other departments.
  - > Curriculum and syllabus was framed in accordance with industry standards by receiving inputs from relevant industrial experts through board of study (BoS).
  - > Learning facility is made compulsory for slow learners.
  - Social involvement of the students by extension activities through NSS programme, village adoption, YRC and RRC.
  - > Value added courses and NPTEL improves the technical skills of the student.
  - Various club activities leads to enhance the managerial skills of the students.
  - > Students are encouraged to participate in co-curricular events.
  - > Students in all the Departments are permitted to carry out their project work in industries. Students are given opportunities to undergo in-plant training and internships industries.
  - Industrial visits are arranged periodically to give the students a practical knowledge and exposure to Industrial practices.
  - Aptitude and technical skill training are provided to the students.
  - Faculty members participate in FDPs to improve their skills.
  - > Students are motivated to participate and present papers in National, International conferences.

    Organizing workshop and symposiums keeps the student fraternity vibrant.
  - > Participation of students in PALS-IITM tie-up programme.
  - Campus lectures (CL)
  - Theory to practice (T2P)
  - > Industrial visits.
  - RuTag.
  - Internship in major industries.
  - Project at industries

### 7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year

- Year calendar is prepared.
- > Expert lectures, Seminars, National Symposium are conducted for the students.
- On campus placement drives have been conducted by WIPRO (Day one slot), and many companies have recruited more numbers of students.
- In order to bring the creative ideas of young Students, they are motivated to participate in various project competitions.
- Installation of CCTV cameras in main gate, hostels and canteen.

#### 7.3 Give two Best Practices of the institution (please see the format in the NAAC Self-study Manuals)

- Effective Learning through efficient teaching.
- Decentralized administration.

#### 7.4 Contribution to environmental awareness / protection

- > Our college maintains cleanliness and environmental protection.
- > The students are motivated to use paper bags instead of plastic bags/containers, plastic usage in our campus is completely banned.
- > Students are advised to prevent food wastage.
- > Encouraging students to use ecofriendly materials.
- Insisting students to conserve non-renewable energy.
- > Paper works are reduced by using e-files, e-circular, intranet and e-mails.
- > LED monitors are used in computers to reduce power consumption.
- > Used computers and peripherals are disposed through proper e-waste management system.

#### 7.6 Any other relevant information the institution wishes to add. (For example SWOT Analysis)

#### **STRENGTH**

- > Research Culture.
- > Outcome Based Education.
- > Choice Based Credit use of Blooms Taxonomy.
- > IPR activities.
- > ICT facilities.
- > IIT Madras PALS Tie-up for Quality enhancement.

#### **WEAKNESS**

- > International Students Admission.
- Dual Degree Programme.
- > International Faculty Exchange.

#### **OPPORTUNITIES**

- > Freedom for designing industry oriented curriculum.
- ➤ Providing opportunities for the students to get placement in various MNC's through campus interview.
- ➤ Creating awareness to the students about the latest technologies through Guest Lectures, Industrial visits and internships.
- > Students may get opportunity to visit various industries time to time to make students familiar with the industry environment.
- ➤ Providing the students real time experience by making them to undergo in-plant training in various industries.
- > Providing necessary aids to make the students present their ideas as projects in the campus.
- ➤ Encouraging the students to participate in sports, NSS, NCC, workshops, seminars and projects in other colleges and industries.
- ➤ Periodically updated Notice board about all competitions and about the vacancy of any govt. and non govt. jobs.
- Scholarships and fee waiver schemes.

#### **THREADS**

- Increase in number of colleges.
- > Retention of qualified faculty.
- > Innovation in technologies, services and ideas.
- > Employment opportunities for fresh graduates.

#### Annexure:

#### **Best Practice – 1**

#### Title: Effective Learning through Efficient Teaching

#### **Objectives**

- > To develop interactive class room teaching to bring out inherent academic knowledge of the students.
- > To provide learning materials and assessment of learning.
- > To offer hands on training to students.

#### The Context

Quality teaching is important for producing the intellectual capital and to compete with other professionals across the world. It is important to create the classroom teaching in an interactive way by faculty members. Also, it is essential to provide the learning materials to the students to enhance the quality of learning.

#### The Practices

- ➤ Providing good learning environment with neat & comfortable seating, Board & marker and uninterrupted power supply for electrical appliances like LCD, OHP, lighting and ventilation.
- > Rest room and purified drinking water facilities are easily accessible.
- Academics, industrial experts and alumni are involved in framing curriculum and syllabus.
- > Teaching with live case studies and examples for easy understanding and creating opportunities to students to interact.
- Value added courses/frequent guest lectures/invited talks by the practitioners are arranged to give more exposure on real time challenges and industrial practices.
- Field/Industry visits and Internship training provides hands on experiences to the students which makes them to have rich understanding in their area of interest.
- Fully fledged laboratories in all disciplines to the students to experiment their own innovative ideas.
- > Students are given opportunity to do industrial research projects.
- ➤ Hi-tech language laboratory is available with latest software to improve students' communication skills in both oral and written.
- It is a regular practice to encourage the students to make presentations in National/International seminar and conferences.
- Mentoring, Counselling, One to one contact remedial classes are conducted to give due attention to the slow learners.
- Question bank is given to the students.
- Provision of 'HoD hour' is given in regular academic schedule to address the grievances of the students and sturdy remedies have been taken immediately to sort out their issues.
- GATE Coaching classes are arranged for students at free of cost to enable them to go for higher studies or to place in Public Sector Units (PSU).

#### **Evidence of success**

- Students' confidence levels on subjects are improved.
- Curriculum and syllabus is at par with industry needs.
- Students are aware of latest technology know how in the respective field of interest.
- > Students' communication and presentation skills are developed and reflected in the various competitions and placements.
- > The academic and non-academic performances of slow learners are improved.
- > Students are free off academic and non-academic issues hence percentage of attendance is much improved and they are able to concentrate more on their career developmental activities.
- Number of participants in GATE examination is increased; few have cleared and gone for higher studies in globally reputed Institutions.

#### **Problems Encountered and Resources Required**

- Faculty members need orientation on interactive teaching methods.
- Training all the faculty members in preparation of course materials and make it online access.
- > To motivate the students to be creative.
- > Students training required in online access.
- Facilities for preparation, uploading and sharing the course materials, and to access the course materials through ICT facilities.

#### **Best Practice-2**

#### **Title: Decentralized Administration**

#### **Objectives**

- > Introduction of decentralized administration to facilitate quick decision making related to academic and administrative activities.
- > To ensure complete transparency and to take prompt and systematic follow up actions.
- > To minimize the work burden of the superiors.
- > To generate more opportunities in the growth and self-development of faculty members.
- > To promote the managerial and administrative skills of the faculty to take up leadership positions.

#### The Context

Decentralization provides freedom to makes faculty to involve more in their activities. This increases the responsibility and work outcome.

#### **Evidence of Success**

- > Every year annual budget is prepared and sanctioned funds are utilized for the department developments.
- Organized many student's enrichment programs like national level technical symposium / seminar / conferences/guest lecture/workshop by the departments.
- The college has signed MOU with leading academic institutions and industries at national and global level.
- End semester examinations are conducted as per the calendar and results are published in time
- More numbers of students are placed in reputed companies during the current academic year.
- > Value added courses are conducted by the departments. Technical and non-technical trainings are given to the students to equip them to fit in the industries.
- > Through IIPC, the college has collaborated with Infosys, ICTACT, EDC, EMC<sup>2</sup> etc.

#### **Problems Encountered and Resources Required**

- > Maintaining uniformity in internal administration.
- > Updating existing guidelines to meet ever changing scenario.
- Scheduling to involve the students in different activities becomes a difficult task with in stipulated time period.
- Decentralization may lead to the problem of co-ordination, raise in administrative expenses and multi-level reporting system.
- > Creation of more funds to implement MOU with foreign institutions for student, staff exchange programme.
- > Technology to automate the entire administrative system.

#### 8. Plans of institution for next year

- NBA Re-Accreditation for eligible programmes.
- Improving the placement opportunities to students.
- > Increase the number of students to appear in the GATE and TOFEL examinations.
- Introduce international valid certificate programs/self-learning courses and study abroad programs.
- > Encourage faculty to adopt ICT enabled innovative teaching/evaluation methods.
- Motivate faculty to enroll / complete doctoral programmes; obtain research supervisor ship; and submit the research proposals to funding agencies.
- Motivate faculty and students to participate in extension activities with Government Organisations and Non-Government Organisations.
- Motivate the students to do projects as patentable.
- > Improving the staff quality by making them to participate in various skill development programs.

# ANALYSIS OF STAKEHOLDERS FEEDBACK SAMPLES

#### Annexure 1.1

#### Analysis of the feedback

Feedbacks are regularly obtained from the faculty members through various modes of interactions. Regular HOD's meeting is conducted to discuss about various activities of the college and to address the different needs and grievances of student, faculties and staff members. Periodical all faculty meeting is conducted to interact with them to know the needs and wants and facilities required to enhance their academic and research skills. Faculty opinion is received through questionnaire in online mode.

Informal discussions are also held to derive their response on the various aspects of curriculum development, student development and research improvement. The principal also interacts with the faculty, staff and students informally to collect their opinion on the infrastructures, Curriculum, curricular activities, Extra -Curricular activities and research. Guidelines given by the various affiliated bodies such as AICTE, NBA, UGC, Anna University and NCTE are considered for student development. Active interaction with them through submission of information/data asked, meetings on agenda like examination reforms, pattern of question papers, student details, conferences and meetings are constantly organized and feedback are obtained.

. The institution has made a conscious effort to shift from the traditional teacher—centric approach to a student-centric one. Experimental learning, participative learning, and problem solving methodologies are used for enhancing learning experiences. The teacher's role is that of a facilitator who supports self development of knowledge, holistic development and skill formation through participatory learning activities such as: Internship/Project Work, Mini-projects, Technical Symposium, Seminars, Workshops and paper presentations etc.,Group Discussion and seminars, Peer teaching, Tutorials, Modeling, organizing Exhibitions, Intercollegiate and interdepartmental competitions, Interactive guest Lectures, Brainstorming, Role play and industrial visits etc.,Free access to the internet and e-journals make them self-reliant and self-regulating learners.Moodle

and other learning management systems. Conference halls equipped with IT infrastructure for webinars and video conferencing.

Students are involved in various teams of the college such as BOS, planning and evaluation; women's empowerment cell etc., Periodical class committee with representatives (minimum of 5students) of the class is conducted by the senior faculty or head of the department. Students' grievances are redressed and their requirements and expectation on training, guest lectures are fulfilled. Heads of every department will interact with the students in a class periodically to understand the student's requirements.

Feedbacks are regularly obtained from the students to enrich the quality factor about the teaching methods, training and development, infrastructure etc., It is obtained through the form of questionnaire and online mode. The principal ensure the performance of the each faculty, if it's not satisfactory appropriate measures will be taken on the faculty through counseling and teacher are encourage taking up knowledge updating programs. The feedback system improves the curriculum and syllabus development. Immediate suitable remedial measures to complaint / grievances are taken by the authority for smooth institutional performance and quality.

#### **BEPARTMENT OF INFORMATION TECHNOLOGY**

The following Suggestions are given by the faculty for framing the new curriculum and syllabi.

S.No	SUGGESTION AND DETAILS OF DISCUSSION
1.	To enable the students for meeting the latest requirements, new software tools like selenium may be included in the new curriculum.
2.	Students are able to understand knowledge and data analysis in industry
3.	In cryptography new techniques to meet latest cyber crime may be included.
4.	The revised new Curriculum may be designed where the students can understand the industry requirements and have hands-on experience. The students will develop a problem solving approach and will be able to meet the challenges of future.
5.	To improve the programming skill of the students a new subject namely python may be included in the first semester itself. In the subsequent semesters also one programming language paper may be introduced.
6.	In 2018regulation, instead of having two objects oriented programming languages (C++ and Java) one may be included.
7.	In computer architecture ,advanced techniques in parallel computing may be included
8.	In 2018 regulation computer architecture title may be renamed as computer organization and architecture
9.	In logical design of digital computer synchronous sequential circuit design topic may be removed
10.	Case study based approach should be followed.

To
The Principal
KSR College of Engineering,
K.S.R. Kalvi Nagar Tiruchengode - 637 215,
Namakkal District.

Sir/Madam,

Sub: Anna University - Research centre recognition - Department of Information Technology - Orders - Issued.

\*\*\*\*

I am by direction to inform that the Department of Information Technology of your Institution has been recognized as a research centre with effect from 01.11.2017. The faculty members of this department can interact with Anna University for collaborative research for the purpose of pursuing Ph.D. / M.S. (By Research) programmes.

The recognized supervisors working in the above department may be permitted to guide the candidates to carryout Ph.D./M.S.(By Research) programme relevant to their field of specialization. Please refer "clause 7" of Ph.D./M.S. (By Research) Regulations.

The above recognition shall be renewed once in three years in compliance with the required norms for research centre as applicable.

In all future correspondence quote "4261313" for reference.

The next renewal application in the prescribed format available in our website: cfr.annauniv.edu along with the number of papers published in SCI journals during the recognized period shall be made during **October 2020** (as per Common Renewal Session) with a renewal fee on fulfilling the norms.

Yours faithfully,

DIRECTOR

# INNOVATIVE PROCESSES ADOPTED BY THE INSTITUTION IN TEACHING AND LEARNING

#### **Innovative Processes in Teaching and Learning**

IQAC motivates the faculty to adopt Innovative processes in Teaching and Learning process. These Innovative teaching approaches which are a combination of the traditional lecture method along with other methods helps the young minds to increase their learning capacity.

- Usage of E-learning resources from National Programme on Technology Enhanced Learning (NPTEL) and National Mission on Education through Information and Communication Technology (NME-ICT) in preparing lectures.
- Visits to the library and access of internet helps to know about the latest trends in technology and many novel applications. Blending these novel applications with the theoretical concept always helps to bring students close to the concept. The Institution library is well stocked with books, journals, and back volumes, projects including ebooks and e-journals, text books, reference books.
- Usage of OHP, Power Point presentations, Models/charts, smart class-rooms
- Usage of ICT infrastructure to prepare computer aided teaching and learning material.
- Conduct of Student Seminars.
- Conduct of Assignments, tutorials, Class room tests and Group discussions on Case studies.
- Conduct of Carrier Guidance and counselling activities as a part of regular timetable which help students to acquire potentials to mould them according to their future goals and ambitions.
- Conduct of Sports and games to students to make them strong physically and mentally which indirectly helps to improve the learning skills.
- Conduct of add on courses like C Programming , Soft Computing , Spoken English to acquire additional knowledge
- Establishing MOUS with industry and academia so as to conduct certification programmes like CCNA, Oracle, Cisco etc which helps the students to bridge the gap between the industry requirements and the concepts they obtained as a part of the core curriculum.
- To impart social responsibility in students NCC /NSS activities are conducted regularly.
- Quick access to the learning material like hosting of the PPTs and course material on website and MOODLE -a course management system (CMS) -a software package designed to help educators easily create quality online courses helps students to learn the concepts at their convenient time. Using Moodle we can maintain and sharing all the course files, video lessons, gate questions, text books and reference books online for all subjects of the semester. At the same time the student's performance can be evaluated in laboratory subjects using Moodle.
- The project development skills in students can be improved by preparing proper screening schedules by the PRC for reviews, submission of the weekly / monthly /semester end reports. After each review necessary guidelines can be provided to the students.

- Through Organizing Industrial/Educational tours and visits to various companies, industries help students to gain real experience about the outside world.
- Conduct of Co-curricular activities like Science Exhibitions, conduct competitions in Quiz, Poster
  presentations, project exempos, short films etc to build competitive and organizational skills in the
  students.,
- Conduct of Gate coaching classes as a part of the timetable helps the students to improve skills to face competitive examinations.
- Conduct of remedial /backlog classes and special classes for slow learners so as to improve the learning skills of the student
- Deputation of students to conferences, seminars and workshops which inturn helps the students to acquire paper presentation /preparation, communication and event participation skills.
- Conduct of Screened animations to illustrate important concepts
- Conduct of mini projects in the concerned subjects
- Conduct of Training programs to students LIKE in Open Source Computing Technology, MATLAB, Labview, PCB Design, VHDL to acquire hands on experience in various applications.
- To teach content beyond the syllabus.
- Usage of Glob arena for preparing the lecture notes and other training e-learning material.
- Lifelong learning skills and interest in research activities can be developed in students through Eminent Scientists and experts lectures.
- To encourage Peer teaching to enable students to attain self learning skills
- Real time projects can be assigned to the advance learners

# EXAMINATION/EVALUATION REFORMS OF THE INSTITUTION

#### a) Examination reforms if any introduced during the period of autonomy:

- Reforms are executed by the rules stipulated by the Board of Studies (BoS), Academic council (AC) and affiliating University from time to time.
- Being in the autonomous status, the College pursue Semester Examination System (Choice Based Credit System) prescribed by the Affiliating University and UGC guidelines for Regulations 2016.
- The College evaluates student's internal assessment marks through continuous assessment system (assignments, class / assignment tests, due weightage for attendance, internal tests and model examination).
- The End Semester Examinations are conducted by the college as per the norms of UGC.
- Transparency is being maintained for Internal Marks which comprises the combined credit of terminal tests, model examination, class / assignment tests, assignments and attendance.
- For continuous evaluation, the college conducts two terminal tests and one model test in addition to End Semester Examination. Assignments are given to students on a regular basis.
- To get rid of the computational issues in the internal assessment marks, the exclusive software tool was developed and periodically the terminal tests, model test, class tests, assignments marks and attendance particulars are being entered by the faculty as and when occurs.
- Internal Assessment Marks secured by the students are uploaded on the college website before the commencements of the End Semester Examination for make it known to them.
- Marks are properly reserved for the performance of Laboratory work, preparation, execution and presentation of lab record, model examination and viva-voce.
- Progress Reports are sent to the parents within a week period of the announcement of semester results / internal assessment tests for parental supervision by involving the parents to know their wards whereabouts and activities.
- To do away with the discrepancies in question papers, the question paper scrutiny by the subject experts is carried out before the preparation of final version which is to be utilized for end semester examination.
- The *marks* for the practical examination have to be *entered* in the COE portal on the same day of the exam by the Examiners.
- During the valuation, the entry of *marks* has to be *entered* in the COE portal against the dummy numbers of the scripts evaluated by the Examiners on session basis.

**DETAILS OF EXAMINATION REFORMS** 

#### What efforts are made by the University / Autonomous College for Examination Reforms?

#### Examination reforms if any introduced during the period of autonomy:

- Reforms are executed by the rules stipulated by the Board of Studies (BoS), Academic council (AC) and affiliating University from time to time.
- Being in the autonomous status, the College pursue Semester Examination System (Choice Based Credit System) prescribed by the Affiliating University and UGC guidelines for Regulations 2016.
- The College evaluates student's internal assessment marks through continuous assessment system (assignments, class / assignment tests, due weightage for attendance, internal tests and model examination).
- The End Semester Examinations are conducted by the college as per the norms of UGC.
- Transparency is being maintained for Internal Marks which comprises the combined credit of terminal tests, model examination, class / assignment tests, assignments and attendance.
- For continuous evaluation, the college conducts two terminal tests and one model test in addition to End Semester Examination. Assignments are given to students on a regular basis.
- To get rid of the computational issues in the internal assessment marks, the exclusive software tool was developed and periodically the terminal tests, model test, class tests, assignments marks and attendance particulars are being entered by the faculty as and when occurs.
- Internal Assessment Marks secured by the students are uploaded on the college website before the commencements of the End Semester Examination for make it known to them.
- Marks are properly reserved for the performance of Laboratory work, preparation, execution and presentation of lab record, model examination and viva-voce.
- Progress Reports are sent to the parents within a week period of the announcement of semester results / internal assessment tests for parental supervision by involving the parents to know their wards whereabouts and activities.
- To do away with the discrepancies in question papers, the question paper scrutiny by the subject experts is carried out before the preparation of final version which is to be utilized for end semester examination.
- The *marks* for the practical examination have to be *entered* in the COE portal on the same day of the exam by the Examiners.
- During the valuation, the entry of *marks* has to be *entered* in the COE portal against the dummy numbers of the scripts evaluated by the Examiners on session basis.

## **ANNEXURE - XXXII**

# DETAILS OF ECO-FRIENDLY CAMPUS OF THE INSTITUTION

#### Annexure 6.3

#### Initiatives taken by the institution to make the campus eco-friendly

The College gives great emphasis to maintain a green and eco-friendly campus. A dedicated Management team is functioning for this purpose. The initiation has been taken in these areas concerned with environment are as follows:

#### \* Energy Conservation

- College adopts various energy conservation measures like switching off the lights / fans in the classrooms/corridors/toilets when not in use.
- Existing conventional lamps are replacing with LED/CFL lamps.
- Display boards are placed for energy conservation and saving of water in the campus.
- Centralized UPS system for computers has been installed.
- Sprinkle system and drip irrigation system are in practice for the lawns and trees.
- Biomass power plant is installed in the campus.
- Recycling of water.
- Vegetable wastes are used for conversion of electricity.
- Highly structured buildings with sufficient natural ventilation and lighting.
- Tree plantations have been done by NSS unit.

#### \* Use of Renewable Energy

- Solar water heaters are installed in Hostels, Guest houses and residential quarters.
- Biomass plants are installed in the hostels.
- Vegetable waste plant.
- Human waste plant.
- Cattle farm in the campus is available with approximately 120 numbers of cattle Photographs of livestock farm, bio gasoline plant, effluent treatment plant and the grass area are proven underneath.

#### \* Water Harvesting

- Rain water harvesting facility is available in the college.
- Mineral water plant using Reverse Osmosis technique has been installed to cater to the drinking water needs of the institutions.
- The water conservation team monitors the consumption in all the buildings and takes appropriate action to conserve water.
- The waste water from bath rooms and wash basins are taken for wastewater treatment plant and the recovered water is used for gardening applications.

#### \* Check Dam

Open channels with provision for drain pipes have been installed to harvest the rain water.

#### \* Efforts for Carbon Neutrality

- Campus is smoke free and use of tobacco products is completely banned.
- A large number of trees are planted in the campus and a nursery has been established for this purpose.
- Campus is plastic-polythene free zone, which makes the campus eco-friendly.
- The college has taken up steps to prevent the emission of carbon dioxide.
- The dead leaves and the waste papers are not allowed to be put on fire.
- The leaves are buried in the soil itself and the papers are disposed off.
- In addition, the following practices have been adopted in the campus for carbon neutrality.
- Pooling of vehicles for students and staff.
- Regular emission testing of vehicles.

#### \* Plantation

Planting trees and developing lawns and gardens are regular features in the campus. Recently 70 saplings donated by alumni were planted. Greeneries in the campus are developed and nurtured on a continuous basis.

#### \* Hazardous waste management

- Chemical wastes are handled with care and offloaded with precautions.
- Guidelines issued in this connection are strictly followed.
- Gas-storage and handling are done as per the established norms.

#### \* e-waste management

Outdated computers in working condition are collected and donated to the nearby educational institutions. UPS batteries are exchanged with new ones.

#### \* Any other - Awareness Programs and Camps

The college frequently conducts socially applicable recognition applications and camps via its several clubs such as NSS, NCC, YRC, and so on., The following table gives a glimpse of such recognition programs conducted by various clubs of our institution.
