| Engineering Graphics Laboratory requires a good understanding of geometry and algebra. This includes knowledge of shapes, angles, dimensions, and spatial reasoning. Knowing the conventions and standards used in engineering drawings, such as line types, symbols, and dimensions, is important. Experience with freehand sketching and understanding of drawing tools and techniques can be advantageous. The ability to visualize and interpret three-dimensional objects from two-dimensional drawings is crucial.  |  |          |   |   |   |                 |
