Respected Sir,

Sub: Webinar on “5G Wireless Technology” - Permission requested - Reg.

The ECE department has planned to conduct a Free Webinar on “5G Wireless Technology” sponsored by Wipro Technologies on 25.11.2021 at 02.30 PM. We request you to grant permission to conduct the Webinar.

Thanking You

Yours sincerely  
Sivasankar Rajamani

### PO3 - Design/development of solutions:

This webinar helps to 5G technology! The Small Cells complement the Macro Cells that are used to provide more wide-area coverage. Macro Cells use **MIMO** (Multiple Inputs, Multiple Outputs) antennas which have multiple connections to send and receive large amounts of data simultaneously. It will also provide various network management features such as Network Slicing using which mobile operators will be able to create multiple virtual networks using a single physical 5G network.

### PO11-Project Management and finance:

This webinar motivated many of the students to do project on It will also provide various network management features such as Network Slicing using which mobile operators will be able to create multiple virtual networks using a single physical 5G network.

### PO12-Life-long Learning:

This webinar provides information on 5G Wireless Technology will not only enhance current mobile broadband services, but it will also expand the world of mobile networks to include many new devices and services in multiple industries from retail to education to entertainment with much higher performances and lower costs, hence helps life-long learning.

**K.S.R COLLEGE OF ENGINEERING (Autonomous), TIRUCHENGODE-637215**  
**DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING**  
**FREE WEBINAR ON “5G Wireless Technology”**

**26.11.2021**

**WEBINAR REPORT**

Department of Electronics and Communication Engineering, K.S.R College of Engineering (Autonomous), Tiruchengode Organized a Webinar on “5G Wireless Technology” in association with WIPRO technologies on **25.11.2021** at **2.30 PM** through Google meet link: <https://meet.google.com/erg-swdx-uzc>

The Webinar began with welcome address by **Dr.P.S.Periasamy** the Head of the Department, ECE. He introduced the resource person **Ms. Hemavathi Tamilmaran** Senior Project Engineer; WIPRO Technologies to deliver the lecture and welcomed all the participants.

**Impact Analysis on Webinar**

- The webinar was very useful to the Faculty members and students to learn about the fundamentals 5G Wireless Technologies. It was very useful for gaining knowledge regarding Wireless Technologies and impact of 5G technologies. 5G meant to deliver higher multi-Gbps peak data speeds, ultra-low latency, more reliability, massive network capacity, increased availability, and a more uniform user experience to more users.
- This webinar helped the Faculty members and students to improve their knowledge on the field of Wireless Technology and the students may have the opportunity to participate in more workshops.
- The webinar has also motivated the students to do more projects using Java Programming. **46 participants** were attended the webinar successfully.

**Impacts on Programme Outcomes:**

**PO1-Engineering Knowledge:**

This webinar provides basic engineering knowledge on 5G Wireless Technologies. 5G Wireless Technology is now the latest cellular technology that will greatly increase the speed of wireless networks among other things.
