Theme of PALS InnoWAH 23-24 :

**Startup Solutions for Sustainability Challenges**

The “Concept and Design” document for the PALS INNOWAH 2023-24 will as a minimum include the following:

1. PROBLEM DEFINITION

- Problem Definition
- Elaboration/Explanation of Problem
- Background Information, as relevant

2. VALIDATION OF THE PROBLEM THROUGH DATA COLLECTION AND ANALYSIS

- Identification of relevant Customer Segment
- Identification of sample size, locations of surveys etc
- Data Analysis - leading to problem definition and description

3. IDEA / CONCEPT/SOLUTION TO ADDRESS THE PROBLEM

- Describe the main idea conceptualized to address the problem
- Elaborate any sub-components linked to the main idea
- Identify the engineering principles applicable for your solution. Recognise that these could overlap across various engineering disciplines
- Mention your Unique Selling Proposition – how your idea/concept/solution is really effective in solving the problem, how it is different from others available in the market, and how it is better.

4. PROJECT DESCRIPTION AND HIGH LEVEL DESIGN

- How will you realize your idea – how to make it work in real life?
- Provide a high level “block diagram” to explain the overall working of the product
- Note that financial viability and market acceptance are a MUST for any project to be successful. These become additional objectives for your project.

5. PROJECT BENEFITS

- What are the benefits the project will provide
- Document the expected benefits
- Try to quantify the expected benefits including the Return on Investment (ROI).

6. OTHER ASPECTS

- Conduct a broad environmental impact assessment and their mitigation
- Identify licenses or permissions that need to be obtained for use of any third party intellectual property in your project.
- Provide an estimate of cost to create the model
- Can the model be mass produced? what would be the main challenges

7. ANY OTHER INFORMATION

- Provide any other information that you would like to provide for better understanding of your project.

8. APPENDICES

- If you wish to provide any large volume reference information to support any aspect of your project, you may provide the same here.

**General Instructions**

1. Keep the document short and crisp. Overall size of the document should not exceed 5-10 pages, (not including “Data Collection and analysis for validation of the problem”).
2. The details of “Data Collection and Analysis” may be provided as an Appendix.
3. Submit this document as .pdf (no embedded documents). Avoid documents needing special software.
