Course Outcome

Through this course students will be able to:

- Evaluate manufacturing assignment based on critical thinking and problem solving skills
- Become a good communicator and effective team member.
- Clear view of G code and M codes and their operations.
- It including tapping ,countersinking, counter boring, and threading

By the end of this course, each student should be able to:

- Utilize CNC Machine programming.
- The CNC machine interprets the design as instruction for cutting prototype parts.

Sub:VALUE ADDED COURSE "Machine Learning Using Python"- Reg.

It is planned to conduct a Valued Added Course for B.E II Year students on topic of "Machine Learning Using Python" from 26.04.2021 to 30.04.2021, Time 09.30am-4.30pm at CSE NET LAB, C-Block Third Floor. All the Willing students should register their name to Course Coordinator Mrs.J.Nirmala Gandhi, Assistant Professor/CSE. The resource person and other details are given below.

Resource Person:

Ms.R.Keerthana / AP / CSE.

Course Coordinator:

Dr.C.Anand / ASP / CSE

Mrs.J.Nirmala Gandhi / AP / CSE

Course Content:

- Introduction to machine learning
- Data Processing
- Regression
- Unsupervised Learning
- Projects Machine Learning using python
- Applications of Machine Learning

Instructions to the students through Course Coordinator

1. Dress Code (Self Grooming, Formal wear with shoes)
2. Discipline and attendance is compulsory to attend the program.
3. Punctuality

If any student not follows the above he/she may not be allowed to proceed further.

Course Outcomes:

Through this course students will be able to:

- Practice the machine learning from its scratch: its syntax, idioms, patterns and styles.
- Illustrate the essentials of the Python library, and learn how to learn about other parts of the library when you need them.
- Understand the features of machine learning to apply on real world problems.
- Learn the basics of learning problems with hypothesis and version spaces.
- Apply debugging and testing techniques to find and resolve errors.

8. You can find your score and review your answers as shown below.

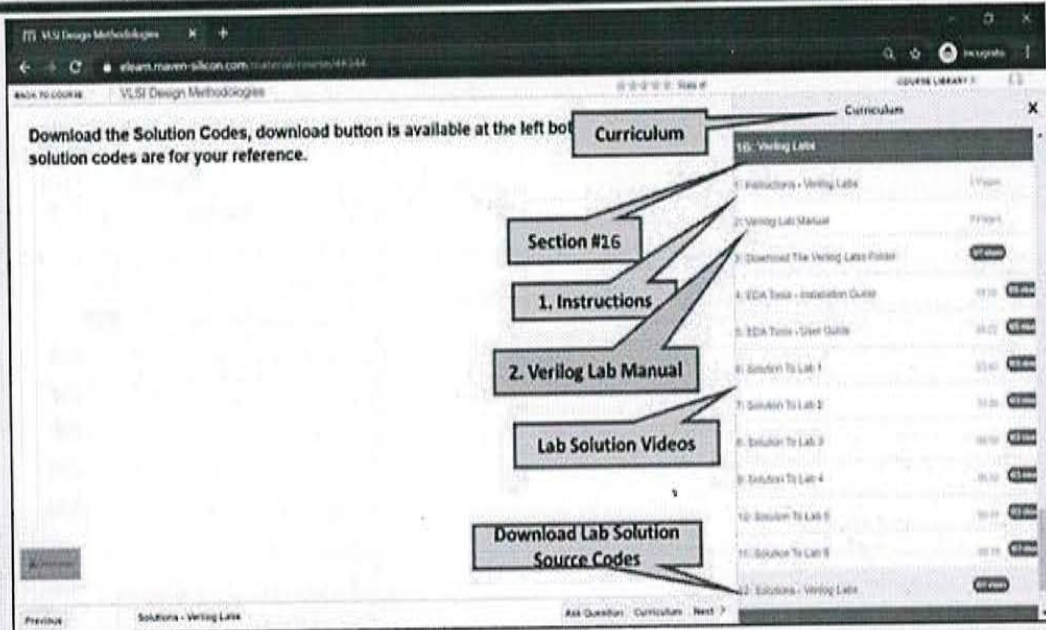

9. After Completion of SoC module, You can start learning Verilog HDL from Section 6. Again there are lecture videos and knowledge check tests are available. You can take up the quiz in same maner.

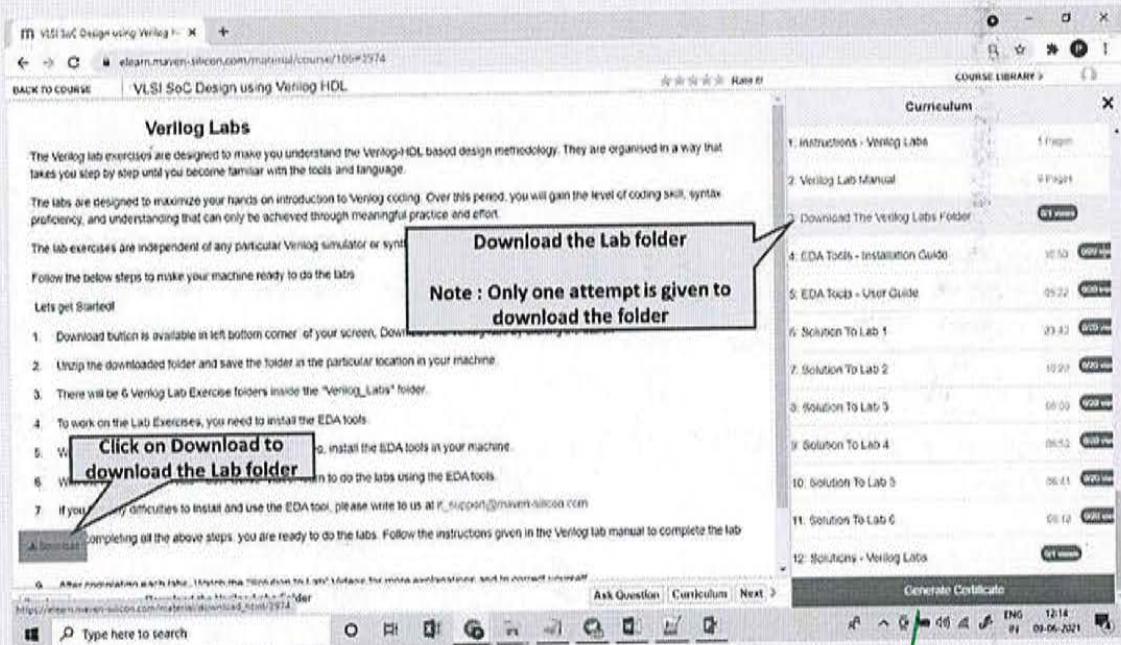

10. Along with theory, you need to work on Verilog Labs also to get Hands on Exeperience. To work on Verilog Labs, you need to Install Mentor Graphics Modelsim and Quartus Prime tools. You can find EDA Tools Installation Guide in section #16 as shown below. After the installation practice the lab by referring to the Lab manual. The lab solution Videos are also available.

11. Now you need to download Verilog Labs. For this, you need to click on Download the Verilog Labs Folder in Section #16 and click on the Download button as shown in the below figure.

12. After completion of the course you can generate Certificate as shown below.

The screenshot shows a web browser window displaying the 'Verilog HDL' course page. The main content area is titled 'Verilog Labs' and contains introductory text and a list of steps for getting started. On the right side, there is a 'Curriculum' sidebar listing 12 items, including 'Instructions - Verilog Labs', 'Verilog Lab Manual', and various lab solutions. At the bottom of the page, there are navigation buttons: 'Previous', 'Download the Verilog Labs Folder', 'Ask Question', 'Curriculum', 'Next', and 'Generate Certificate'. A callout box with the text 'Click on Generate Certificate' points to the 'Generate Certificate' button.

Value Added Course on “C programming using Flowgorithm Tool” (2020-2021)
Course Outcomes

Date: 19.12.2020

Upon successful completion of the course, the learner will be able to :

- Comprehend the given problem and develop algorithms for solving them.
- Express the logic as flowchart with the help of flowgorithm tool.
- Convert the flowchart in to equivalent code in c language.
- Express solutions to computer oriented problems using flowchart or pseudocode.
- Transform designs of problem solutions into C programming language.
- Write, compile and execute C programs on a IDE.
- Apply debugging and testing techniques to find and resolve errors.
- Write modular code using functions.

ABOUT THE COLLEGE

K.S.R College of Engineering was established in the year 2001 by Aarthi Educational and Charitable trust, approved by AICTE, New Delhi and affiliated to Anna University Chennai is an ISO 9001-2008 (E) certified and NBA accredited institution. The institution is conferred with the autonomous status by UGC & Anna university, Chennai in the year 2011. Our college offers 7 UG and 13 PG Programs in Engineering Technology and Management. The college has completed fifteen years of dedicated service in the field of technical education with an avowed mission to mould students, technologies and managers, by diligently imparting the best of technical education, nurturing human values and quality as well as to foster and maintain mutually beneficial partnership with industry through knowledge sharing, collaborative research and innovation

ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was established in the year 2005 with an intake of 60 students. The department is having qualified and experienced faculty to cultivate and enhance the knowledge of the student community. The department is continuously striving to impart knowledge through practical exposure. Skill development trainings and industrial visits are regular features of the academics. The intake every year grew and now stands at 240 per year.

ABOUT THE PROGRAMME

The department of mechanical engineering, K.S.R. college of engineering, Tiruchengode, organizing three days Value added Course on "" in the month of July 2021s. This training programme is aimed to discuss the opportunities, challenges and applications of CNC techniques..

CERTIFICATE

Participants will receive an E-Certificate after attending all six days of programme, submission of feedback form and attending examination in the final day of the programme.

TARGETED PARTICIPANTS

Student and faculty members from AICTE approved engineering colleges / universities are eligible for the training.

Respected Sir,

Thanks for your support rendering to us. I herewith attached ICT Academy CSS Corp CSR training program student's attendance for your reference, as per our proposal students have to earn 85% attendance to continue in further sessions and for an assessment. **Currently Soft skills training is going on, it completes in another 6 days and then we start Technical session.**

Around 28 student's attendance is less than 50%, i request you to ask them to attend these 6 days to increase their attendance percentage. If the same scenario continues, we unable to continue the entire batch.

Do the needful and revert for further clarifications.

With Warm regards,

Respected Sir,

We Thank for your support towards implementing CSS Corp CSR training program to your students. Today the soft skills training completed, from tomorrow we are starting Technical session (Hardware and Networking). As per our proposal we shortlisted students based on their attendance percentage.

I herewith attached eligible students list for Technical session. We request you to encourage these students to attend the entire session for the successful completion of this program.

Kindly revert for any clarifications.

Dear Students,
Greetings from ICT Academy !!

PRINCIPAL,
K.S.R. COLLEGE OF ENGINEERING
TIRUCHENGODE - 637 209.

We are glad to be associated once more with your Institution in yet another initiative of ICT Academy. We are happy to intimate you that the CSS Corp CSR Project of training 1200 graduating Final year students in Course " Skill Training in Soft Skills and Technology" is to be launch from 2nd December'2020.

We request you to login for the Training as per the following schedule and Guide lines.

Program Start Date : 02.12.2020 (Wednesday)

Time : 10 Am to 12 Pm (Monday to Friday)

Attendance for this training is very important for your certification and we would require each of the students to clock in 100% attendance .

Guidelines :

- Must have a good Internet connectivity with functional webcam and Microphone
- PC/Laptop with Windows 7/8/1/10 64-bit, 4GB RAM, 100GB Hard Disk, i3 or above processor.
- **DO NOT USE MOBILE PHONE** to attend the training. Use Laptop or Desktop Compulsorily
- We use Microsoft Teams as the video conferencing tool.
- **Use your Prog ID as the username** while using Microsoft Teams to attend the session so that we can identify it is you.
- The link to attend online session will be sent ONE HOUR before the commencement of the session (on daily basis) to the Registered E-mail.
- The entry to the meeting will be blocked after 10 minutes of commencement of the session. Kindly ensure you login before 5 minutes to the start of the session.
- Unregistered or Anonymous participants will be expelled from attending the session.
- Take up all the assessments WITHOUT FAIL.

We thank you for the support extended in all our initiatives and looking forward to making this training a success.

Kindly revert for further clarifications.

With Warm regards,

N.Bala Murali

Dear Sir,

Thank you very much for your support extended towards completion of ICT Academy and CSS Corp CSR program. As you know 50 students enrolled and finally 35 students completed successfully.

And we are in process of preparing Project Completion Report to submit CSS Corp, in this regard we need a Testimonial about this project and training from your end (From Principal, Project Coordinator & Student's). Request you to share the same at the earliest.

Once again Thanks for your cooperation and expecting to work many more projects and lighten up the student's career.

With Warm regards,

Course Objectives:

- Master the fundamentals of writing Python scripts.
- Learn core Python scripting elements such as variables and flow control structures.
- Discover how to work with lists and sequence data.
- Write Python functions to facilitate code reuse.
- Use Python to read and write files.

Course Outcomes:

- Understand computer architecture and data representations (variables, representation of numbers and character strings).
- Learn basic algorithmic problem-solving techniques (decision structures, loops, functions).
- Use and understand objects used in programming.
- Design, document, implement and test solutions to programming problems.
- Identify and repair coding errors in a program.

Python features

Lutz, *Programming Python*

universal "first-class" object model	fewer restrictions and rules
run-time program construction	handles unforeseen needs, end-user coding
interactive, dynamic nature	incremental development and testing
access to interpreter information	metaprogramming, introspective objects
wide portability	cross-platform programming without ports
compilation to portable byte-code	execution speed, protecting source code
built-in interfaces to external services	system tools, GUIs, persistence, databases, etc.

no compiling or linking	rapid development cycle
no type declarations	simpler, shorter, more flexible
automatic memory management	garbage collection
high-level data types and operations	fast development
object-oriented programming	code structuring and reuse, C++
embedding and extending in C	mixed language systems
classes, modules, exceptions	"programming-in-the-large" support
dynamic loading of C modules	simplified extensions, smaller binaries
dynamic reloading of C modules	programs can be modified without stopping
