**Event Schedule and Report**

1	Name of the Event (Seminar/Workshop/Conference/FDP/Any other)	AICTE Sponsored Short-term Training Program (STTP) - Phase : I
2	Name of the Department	Civil Engineering
3	Date of the Event	26.04.2021 to 01.05.2021
4	Venue	Online mode through Google Meet
5	Title of the Event	A Beeline For Circular Economy through Sustainable Waste Management – Phase : I
6	Name of the Co-ordinators	Dr.V.Revathi, Prof and Head Dr. S. Senthilkumar, Prof Dr.N.Muralimohan , Asoct.Prof Mr.S.Elango, Asst.Prof
7	Total Participants	90
8	Objectives of the Event	To reducing waste to a minimum by reusing, repairing, refurbishing and recycling existing materials and products by applying recent skills, techniques and suitable research methodologies.

**AICTE sponsored STTP on “A Beeline for Circular Economy through Sustainable Waste Management”**  
**SCHEDULE OF PHASE – I - (26.04.2021 to 01.05.2021)**

**Intent of the Event:**

The focus is on reducing the amount of raw materials we use and maximizing the value of materials along the production and consumption chain. Waste is recycled where possible and brought back into production processes by appropriate research methodologies with innovative skills.

**Theme:**

Raw materials are becoming ever scarcer. However, only less than 10 per cent of materials are recycled after use, causing the amount of waste to grow. Changing consumer habits, industrial development and growing cities are exacerbating the problem. Waste in many developing countries and emerging economies is not disposed of properly, which harms people, the environment and the climate. Environmental pollution negatively impacts biodiversity and threatens sustainable development worldwide. The circular economy offers providing guidelines, good practices and tools for urban decision-makers and imparting this information in training courses. Topics include planning and financing waste management systems, business models, economic instruments, and the inclusion of climate-related aspects, technologies to reduce greenhouse gases in waste management, circular economy and research methodologies in the field of sustainable waste management.

**The STTP program Schedule is:**
