**AICTE Sponsored STTP as Forum on Nurturing Clean-Water and Green-Waste**  
**PHASE – III (14.12.2020 to 19.12.2020)**

**Intent of the Event:**

- To train the participants with innovative skills with special focuses to appropriate treatment methods
- To impart the knowledge on Clean water and Green waste
- To apply the necessary research methodologies in Environmental Engineering

**Theme:**

Green waste, also known as "biological waste", is any organic waste that can be composted. It is most usually composed of refuse from gardens such as grass clippings or leaves, and domestic or industrial kitchen wastes. Green waste does not include things such as dried leaves, pine straw, or hay. Such materials are rich in carbon and considered "brown wastes," while green wastes contain high in concentrations of nitrogen. Green waste can be used to increase the efficiency of many composting operations and can be added to soil to sustain local nutrient cycling.

Clean water is a human right. If we believe that's true, how is it that one out of every three people worldwide is still unable to access clean water? Is there water that's clean enough for some groups of people but not for others? And what exactly is "clean" water? We will examine the answers to those questions and others in this STTP.

**Topics Covered:**

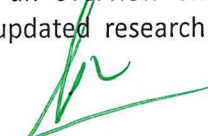

Dr. P. Vijayalakshmi, Deputy Chief Scientific Officer, Tamilnadu Pollution Control Board delivered a lecture on "Reuse of grey water and effective management of green waste at home". Dr. A. Geethaselvarani, Professor/Civil, School of Mechanical and Construction, Vel Tech -Chennai discussed about "Application of simulated recharge for both quality and quantity of ground water by using GIS and Remote Sensing". Dr. Lopa Pattanaik, Research Scholar, Center for Rural Development and Technology, Indian Institute of Technology Delhi, India taught on "Sustainable utilization of solid and liquid waste generated from an Indian agro-industry". Dr. P. Velumani, Associate Professor/Civil, B. M. S. Institute of Technology and Management, Bengaluru addressed on "Sustainable Practice in Civil Engineering-Current Scenario". Dr. P. Sridhar, Assistant Professor/Civil, National Institute of Technology, Warangal gave a lecture on "Green fuels from waste". Dr. S. Vanitha, Associate Professor/Civil, Kalasalingam Academy of Research and Education, Krishnankovil delivered a lecture on "Influence of weather parameters on BOD removal in construction wetlands". Dr. Sachin Kumar Tomar, Project Scientist, TERI, Darbari Seth Block, India Habitat Centre, New Delhi India discussed about "Aerobic granulation for treating wastewater laden with phenol, thiocyanate, and ammonia-nitrogen". Dr. Sudharsan Narayanasamy, Associate Professor/Civil, Vidya Jyothi Institute of Technology, Hyderabad, India highlighted on "Effective utilization of glass powder in bricks". Dr. G. DINESHKUMAR, Assistant Professor/Civil, Vaagdevi College of Engineering, Warangal talked about "Green materials". Dr. M. Logesh Kumar, Assistant Professor/ Civil, Sona College of Technology-Salem gave an overview on Geocrete. Towards the end, all the participants witnessed the recent skills and updated research methodologies in Environmental Engineering.
