Code Crushers

S.No	Date	Activity Name	Description
1.	22.03.2025	DevNexus Tech Fest	The Gen AI Efficient Code Challenge & Debugging event was organized under DevNexus Tech Fest to enhance AI-driven coding and debugging skills. The program encouraged innovation, collaboration, and efficient problem-solving using Generative AI tools.
2.	17.04.2025	PARADOX 2K-25	PARADOX 2K-25 organized a Hackathon and Gen AI Efficient Code Challenge to encourage innovation and optimize coding skills using Generative AI. The event brought together tech enthusiasts and developers to enhance debugging techniques, collaboration, and AI-driven problem-solving.
3.	25.10.2024	Hackthon	The Hackathon titled "Frontend Designing" was organized for II and III year CSE students. The event aimed to foster creativity and innovation among students. Its primary objective was to encourage participants to develop practical solutions to real-world problems within a limited time frame. Overall, the hackathon provided a high-energy, competitive environment, showcasing students' talent and commitment to technological innovation.
