

CON CONSORTIUM CLUB (CCC)

Objectives:

The CCC, which covers in the areas of Concrete, Construction and Consultancy

- Knowledge Sharing and Education to promote understanding and knowledge of concrete technology, materials, and construction techniques among members through workshops, lectures, and training sessions.
- Skill Development to develop practical skills in concrete testing, design, and analysis for students or professionals interested in construction and civil engineering.
- Research and Innovation to encourage and support research initiatives in the field of concrete technology and construction methods, fostering an environment for innovative solutions and sustainable practices.
- Industry Collaboration to build relationships with construction and engineering firms for collaborative projects, internships, and consulting opportunities, providing real-world experience to members.

Glimpse of Club Activities:

	
<p>Seminar on An Idea for Startup and Innovation – Flowable slurry in Pavement Applications</p>	<p>Industry Consultancy done by our students</p>

Faculty Incharge:

1. Dr.A.Alex Rajesh. AP/Civil
- 2.Mr.A. Thomas Eucharist, AP/Civil
