Our Department of Computer Applications (MCA) at the KSR College of Engineering successfully organized a significant MoU Signing Ceremony on July 26, 2025, which began at 09:30 AM in the Spinel Hall. This strategic collaboration was established with ICANIO Technologies, Tirunelveli, a company specializing in digital transformation and software development. The event was jointly coordinated by the Centre for Innovation & Incubation and the Industry-Institute Interaction Cell, underscoring the institute's dual focus on innovation and industry relevance. The Memorandum of Understanding is designed to bridge the gap between academic theory and industry practice, aiming to enhance student skills and provide exposure to cutting-edge technologies. This initiative is a clear reflection of KSRCE's mission to produce industry-ready professionals and is celebrated as part of the institution's 25 years of Academic Excellence.
