*The Department of Computer Applications (MCA) at KSR College of Engineering, an autonomous and NAAC A++ accredited institution, is organizing an insightful Guest Lecture on the topic of AI in Data Science. This high-value session is conducted in association with the Industry – Institute Interaction Cell and the Centre for Innovation & Incubation to bridge the gap between academia and industry best practices. The lecture will feature Ms. Rashmika Murugesan, a seasoned Data Scientist from Cisco Systems, Bengaluru, who will share her expertise on how Artificial Intelligence is transforming the field of Data Science. Students and faculty are invited to attend this knowledge-sharing event on September 19, 2025, commencing at 02.00 PM in the modern MCA Smart Class Room, C-Block. This lecture aligns with KSRCE's commitment to supporting the Sustainable Development Goals (SDGs) by promoting quality education in cutting-edge technologies.*

Our Department of Computer Applications (MCA) is organizing a specialized Guest Lecture on Google Firebase Cloud. This informative session is a collaborative effort In Association with the Industry – Institute Interaction Cell and the Centre for Innovation & Incubation, emphasizing practical, industry-relevant knowledge. The resource person for the event is Mr. K. Boopathi Kumar, the CEO and Founder of Training Trains Software Technologies based in Erode and Coimbatore, who will share his expertise on leveraging Firebase for modern application development. The lecture is scheduled for October 11, 2025, and will commence at 09.30 am in the MCA Lab (C-Block). This event underscores KSRCE's commitment to delivering quality education and supporting the Sustainable Development Goals (SDGs) by providing cutting-edge technological training.

## DEPARTMENT CLUB ACTIVITIES

### ***Seminar on “Beyond Brains: Bridging Human Intelligence with Artificial Intelligence”***

*Our Department of Computer Applications (MCA) successfully conducted a seminar on “Beyond Brains: Bridging Human Intelligence with Artificial Intelligence” to provide students with valuable insights into the evolving relationship between human thinking and artificial intelligence. The session aimed to explore how human creativity and reasoning can work together with AI technologies to solve real-world challenges and create innovative solutions. The seminar was graced by **Mr. Mousik Shankar**, CEO of **Inzovate Technologies Pvt. Ltd., Erode**, who shared his expertise on the advancements in AI and its role in shaping the future of industries.*

*The event highlighted the importance of merging human intelligence with AI to enhance productivity and innovation. Students actively participated in interactive discussions, gaining a deeper understanding of AI applications and their societal impact. The session proved to be both inspiring and informative, encouraging participants to explore the limitless possibilities of artificial intelligence in the modern world.*
