Editor Message

Thank you for Contribute the Journal of Computer Applications issue. The main objective of the journal is to publish refereed papers in the area Computing and Information Sciences. It is a quarterly published National scientific research journal focusing on issues in active research. This issue contains seven research papers selected after peer review. It reflects the quality and style of the journal's content in the future.

Our ambition is to publish work that is truly valuable to both authors and readers. The secondary objective is to assist in the evolving and maturing of IT-dependent organizations, as well as individuals, in information and knowledge based culture and commerce which includes but is not limited to Information Systems, Artificial Intelligence, e-Commerce, Virtual Business and Enterprise, Intelligent Systems, Computer Systems, Information Technology , Computer Networks, e-Government, Database Systems and Theory, Language and Search Engine Design, Knowledge Management, Data Mining/ Web Mining, Computational Intelligence, Distributed Computing, Scientific and High Performance Computing etc.

Looking forward to welcoming you as a regular reader.

About the JCA

We live in a modern world where technology plays a vital role, and the role of IT is getting predominant. We feel that the younger generation needs to be tuned with critical perspectives on the existing methods of Information Technology, to find answers to their constant quest about the new dimensions of Artificial Intelligence, to enhance them to explore new frontiers of computer science and to pave the way to the domain of the virtual reality.

National Journal of Computer Applications is an earnest effort to evolve the youth to achieve their full potentials. The journal is solely devoted to the illumination of IT based younger generation and through this journal we intend to serve as a platform for the researchers.
