

# K.S.R. COLLEGE OF ENGINEERING

(An Autonomous Institution)

Tiruchengode, Tamil Nadu - 637 215.

## 2.2.1 The institution assesses the learning levels of the students and organises special programmes for advanced learners and slow learners

In order to help the students from various groups, such as Non Computer Science, Vocational and Tamil medium students, our college K.S.R. College Of Engineering is conducting bridge course at beginning of the first year. To eradicate the fear of learning and communicating English, communication skill training is provided for Tamil medium students. For Non computer science students (Maths – Biology group in Higher Secondary School), basic computer concepts are taught and also the importance of computer programmes in the placement activities. For students admitted from vocational background special classes are arranged for Mathematics.

The bridge courses make the above group students comfortable while attending the regular classes.
